

nizuc

NIZUC Resort & Spa redefines the standard for luxury resorts and spas in Mexico and around the world. Named "One of the Best New Hotels in the World" in 2014 by Condé Nast Traveler, the contemporary Mexican design captures the essence of the Mayan culture.

Nestled on a lush 29-acre nature preserve, this slice of paradise provides an escape like no other on Mexico's stunning Caribbean coast. Just a 15 minute drive from the Cancun International Airport, the luxurious resort overlooks the great Mesoamerican Barrier Reef and boasts two exclusive beaches, a lavish spa by ESPA, six gourmet restaurants, and sumptuous accommodations offered throughout its 274 private villas and suites.

At NIZUC, paradise is personal.

Once a base station for Mayan astronomers and later a presidential retreat for world leaders, NIZUC Resort & Spa is the ideal getaway for travelers seeking an experience above the norm and out of the fray.

Accommodations are divided into three distinct categories to fit the needs of every guest.

Ocean Suites offer sweeping water views in an adult-only environment perfect for a romantic getaway or honeymoon.

Garden Pool Villas provide the ultimate in seclusion with private pools and lush tropical gardens for those seeking an exotic escape.

Residence Suites range from master suites with infinity pools and ocean views to those featuring connecting rooms perfect for families.

NIZUC is home to the region's most creative dining with a selection of six gourmet restaurants ranging from contemporary Mexican to Asian with a modern twist. Each features a unique design statement from casual open-air dining to refined elegance. Led by world-class culinary masters, each restaurant is a testament to NIZUC's dedication to top-tier cuisine options where guests can expect unsurpassed service and variety.

A wide variety of modern-day activities are found around the resort and include tennis with a PBI-certified pro, water sports and world-class golfing. Snorkeling excursions can be chartered to view the underwater sculptures at Punta Nizuc, and Winik's Kids Club offers a fully-staffed facility with endless fun for kids from 4 to 12 years old.

www.spa.com

At the center of NIZUC is the spectacular spa and wellness center by ESPA— the first in the region for the internationally acclaimed British brand. Guests will be amazed by the 30,000 square foot oceanfront facility that features private treatment rooms with views, saunas, and relaxing pools. The Spa at NIZUC by ESPA also features its own beauty salon, spa café and fitness center.

NIZUC presents a range of seasonal and cultural programs designed to immerse and educate guests through the richness of local lore and vibrant traditions of the Yucatan Peninsula.

The resort is the perfect location for a beach-side wedding ceremony with multiple options for reception spaces and other celebrations. Guests can explore nearby Mayan archaeological sites, incredible underground caves and rivers, adventurous diving and snorkeling, and regional cuisine.

NORTH AMERICA

Multiple carriers provide direct flights from Los Angeles, San Francisco, Seattle, Denver, Houston, Chicago, Boston, Toronto, New York, Miami and other major gateways.

Located at the secluded enclave of Punta Nizuc, the resort is just a 15-minute drive from Cancun International Airport.
